

# BOZ

## Notes:

This special boy is the beautiful Boz.

Boz was born deaf, but don't let that put you off as has been away at special doggy school with a trainer learning sign language (hand signals) - so he now knows how to sit, drop and roll over and is getting better with stay.

Boz is a purebred Australian Cattle Dog (Blue Heeler) who was rescued by a lady because he was going to be put to sleep because of his deafness.

He was then surrendered into our care and we thought that an intensive sign language course would make him a lot more adoptable and help him lead a normal life.

Boz will make a loyal companion as most of his breed do but remember he is a working dog and will need some activity and exercise each day.

Boz would be suitable for someone who is home most of the time and is willing to continue with his sign language training and understand that he is a special needs dog. We are sure he will be well repay any time and effort spent on him with faithfulness and dedication.
